Heartsaver® CPR AED

When seconds count, do you know what to do if someone collapses? Would you like to learn CPR and how to use an AED for an adult, child and infant? We have the opportunity to have a class here at BPC.

"**Heartsaver® CPR AED** is a video-based, instructor-led course that teaches adult and child CPR and AED use, infant CPR, and how to relieve choking in adults, children, and infants. This course teaches skills with the AHA's research-proven practice-while-watching technique, which allows instructors to observe the students, provide feedback, and guide the students' learning of skills.

This course is for anyone with limited or no medical training who needs a course completion card in CPR and AED use to meet job,

regulatory, or other requirements.

Features

Video-based course ensures consistency

Instructor-led, hands-on class format reinforces skills proficiency

Course is updated with the new science from the *2015 AHA Guidelines Update for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care*"

The fee would be \$25 person. The class is taught by one of Georgetown's first responders. *A day and time has not been set,* please contact Sue Daigle if you are interested and to tell her your preferred times. 978-771-0208 OR SueZDaigle@yahoo.com
